Vulnerable Road Users

A focus on road users during hours of darkness

What do you see?

What do you see?

What do you see?

What do you see?

Bright colours, hi-viz clothing and lights make a huge difference to all users.

RSA Road Safety Authority Advice

- If there is a footpath, you **must** use it.
- If there is no footpath, you **must** walk as near as possible to the right-hand side of the road, facing oncoming traffic.
- If the road is narrow or carries heavy traffic, you **should** walk in single file and never more than two abreast.
- You **should** always wear bright, high-visibility clothing when walking during the day and reflective clothing when walking at night.
- You **should** always carry a torch when walking at night.
- You **should** always be aware of other road users.
- If you are walking as a group of more than 20 people, you **should** walk on the left-hand side of the road, in the direction of traffic flow.
- You **should** never walk on the road after consuming alcohol as this is very dangerous at any time of day or night.
- Before you go out socially, you **should** always arrange how to get home safely.
